Subject: FW: Modesto Groundwater Superfund Site - Well MW-37B

Carolyn,
It appears someone may have paved over a well in the street in Virginia.
I noted on Goggle that PG&E had USA markings

Do you know if we had a permit in this area in the last couple of years?
These are two permits I found

ENC2019-50531	446 VIRGINIA AVE	PG&E - MODESTO OFFICE	PG&E JOB # 44104414, RESTORE ROW, PER CITY SPECS & INSPECTOR APPROVAL
ENC2020-60008	542 VIRGINIA AVE	PG&E - MODESTO OFFICE	PG&E JOB # 35100247, DEACTIVATE GAS MAIN, PER CITY SPECS & INSPECTOR APPROVAL "MINIMUM 10FT LANE WIDTH SHALL BE MAINTAINED AT ALL TIMES"

This is the general location

Subject: Modesto Groundwater Superfund Site - Well MW-37B

Dan,

You helped me a couple of years ago on a well that had been paved over by WF Builders. We have had another well paved over and this well is vital to the ongoing work for the site. The well is on Virginia Ave, north of West Morris. I have attached a figure showing the rough location. The well was last sampled in mid-2018. I have also attached a picture of the well location.

Could you please call me or direct me to who I need to discuss this issue with? My cell, 707.246.5399, is the best way to reach me. Thank you.
